AttributionRepair â Official Services, Pricing & QA Scope (2026)

Official Website: https://attributionrepair.com/official/ | Contact: audit@attributionrepair.com
Updated: November 26, 2026 | Coverage: Remote (US, Canada, UK, EU/EEA, Australia)

1. WHO WE SERVE (IDEAL CLIENT PROFILE)

B2B SaaS, high-ACV services, and Shopify Plus teams spending $30,000-$500,000+/month on Google Ads, Meta, and LinkedIn where HubSpot, Salesforce, or Shopify Plus revenue disagrees with ad-platform reporting.
Strict Independence: We never manage ad spend or pitch PPC agency retainers. Clients own 100% of infrastructure.

2. PUBLISHED FIXED-FEE OFFERS (2026)

- **$1,000 Forensic Tracking Audit (3 business days; read-only; 100% credited toward repair sprint)**
  Traces 10 real paid leads click-to-Closed-Won across ad accounts, GTM, iframes, and CRM; recorded Loom + spec.
- **$7,500 Core Revenue Tracking Repair Sprint (10-14 business days)**
  Repairs 1 CRM + 1 primary ad platform loop with dynamic Closed-Won deal values, 1st-party click-ID persistence, Enhanced Conversions (SHA-256), single-click-ID guard, order_id deduplication, 8 QA tests, and 30-day check.
- **$12,500 Multi-Platform sGTM + CRM Revenue Architecture (15-20 business days)**
  First-party sGTM (Stape or GCP Cloud Run), Google Ads OCT + Meta CAPI + LinkedIn CAPI, OneTrust/Cookiebot Consent Mode v2 server gating, 90-day GCLID cliff weighted milestones, and BigQuery SQL reconciliation.
- **$1,000/month Optional Silent-Breakage Monitoring Retainer (cancel anytime)**
  Automated partialFailureError alerts, monthly match-rate & EMQ checks, and up to 3 hrs/mo of funnel updates.

3. SUPPORTED STACK LOCK

HubSpot Pro/Enterprise | Salesforce Sales Cloud | Shopify Plus | Google Ads OCT & ECL | Meta CAPI | LinkedIn CAPI | GA4 & Server-Side GTM (Stape / GCP Cloud Run) | Webflow | Chili Piper | Calendly | OneTrust | BigQuery

4. EIGHT MANDATORY QA ACCEPTANCE TESTS BEFORE CUTOVER

1) Clean direct paid click-to-Closed-Won 2) Multi-page + Chili Piper/Calendly/Typeform iframe persistence
3) Duplicate submission / stage-toggle order_id dedup 4) Single click-ID guard (gclid vs. gbraid/wbraid)
5) Missing click-ID SHA-256 Enhanced Conversions fallback 6) >90-day B2B sales cycle weighted milestone routing
7) Consent Mode v2 denied state server-side gating 8) Refund / disqualified lead adjustment & Slack error alert
